The **HEU, Centre for Health Economics**, The University of the West Indies' (UWI-HEU) mission is to 'make a difference' in the health and human development of the people of the Caribbean region.

The HEU's innovativeness in filling the need for evidenced-based research and technical support in the region, as well as its responsiveness to new challenges have positively influenced the progress of countries towards universal health coverage, social well-being, fiscal improvements, among others, through policy formulation and implementation.

Our organization's culture is built on knowledge sharing and collaboration with national, regional and international agencies, and civil society organizations. Some broad areas of our work include:

### **Health Financing and Programming**

- Design and Development of National Health Insurance Systems
- Cost of Health Care Services and Programmes
- Cost of NCDs, HIV and AIDS, other Diseases and Procedures
- Provider Payment Mechanisms in the Caribbean
- Country National Health Accounts

### **Economic Policy**

- Tobacco Taxation and Impact of Policy Reforms
- Modeling the Long-term Economic Impact of Tobacco Taxation
- Sugar-Sweetened Beverage Policies
- Social Security and Pension

### **HIV and AIDS and Non-Communicable Diseases**

- Knowledge, Attitudes, Beliefs and Practices (KABP) Surveys
- HIV/AIDS Strategic Plan Development and Costing
- Curriculum Development for Needs-Based Training of HIV/AIDS Personnel
- Costing of Diabetes and other NCDs in the Caribbean

### **Training and Capacity Building**

- Teaching at undergraduate and graduate levels
- Seminars and Workshops

The HEU is a World Health Organization Collaborating Centre.

# Welcome to Hospital Internacional de Colombia, the Medical Complex of the FCV

Our purpose is to take care of lives, providing the best possible healthcare and a memorable experience for patients coming from all around the world.

“This is how we were born more than 35 years ago, with the motivation to serve others, giving our hearts day by day, so our patients and their families have the possibility to receive specialized medical treatments for different types of diseases, in an entity of excellence and worldwide recognition as a research and development center.”

MD. Víctor Castillo  
FCV President

## Conference History

*A Forum for sharing knowledge, testing ideas and building capacity...*

*In response to requests from Caribbean governments to 'do more' in health', Heads of Caribbean Social Security Organizations at their 17th General Meeting (Belize City, June 2006) agreed to establish a Caribbean forum for discussing approaches, challenges and lessons learnt in addressing health financing matters.*

*These Health Financing Conferences have been organized to share knowledge, test ideas, build capacity as we learn from those who have direct and indirect responsibility for planning or administering health financing initiatives.*

*Recognizing that knowledge in health and related health financing matters do not reside with a single professional group, the Conferences have actively expanded participation by involving experts and officials with first-hand health experience from international organizations, Ministries of Health, health insurers, third party administrators as well as health services networks, research agencies, IT companies and academic institutions.*

## **CARIBBEAN CONFERENCE ON NATIONAL HEALTH FINANCING INITIATIVES**

## PREVIOUS CONFERENCES

The fourteen (14) previous Conferences were hosted by and held in:

<b>Year</b>	<b>Country</b>	<b>Host</b>
2006	Turks & Caicos Is.	National Insurance Board (NIB)
2007	Aruba	General Health Insurance (AZV)
2008	Trinidad & Tobago	National Insurance Board (NIB) and Ministry of Health (MOH)
2009	St Maarten	Department of Public Health (DPH)

2015	Turks & Caicos Is.	National Health Insurance Board (NHIB)
2016	Bonaire	Health Insurance Office (ZVK)
2018	Suriname	State Health Foundation (SZF)
2019	Anguilla	Anguilla Social Security Board (ASSB)
2022	Antigua and Barbuda	Ministry of Health, Wellness and the Environment (MOHWE) and Medical Benefits Scheme (MBS)

# THE 15TH CONFERENCE

This year's Conference is cohosted by The UWI-HEU and the Hospital Internacional de Colombia-Fundación Cardiovascular de Colombia (HIC-FCV).

As in past Conferences with selected themes, this year's focus is on 'Health Financing in the Caribbean: Optimizing Efficiency in Governance and Public-Private Partnerships'.

Particular attention will be centered on:-

- International, regional and national best practices and lessons with governance of health financing programmes;
- New trends and regional case studies in public-private partnerships in health and health financing matters;
- Findings from Caribbean applications of the WHO's Health Financing Progress Matrix (HFPM) evaluation instrument; and
- Health financing resilience-anticipating and staying ahead of challenges and shocks.

As shown in the Programme, we have a well-planned mix of:

- Feature papers, panel discussions and expert commentaries;
- Caribbean and non-Caribbean speakers;
- New and experienced presenters; and
- The full benefits of open one-on-one sharing of insights, experiences and suggestions from participants during and outside Conference hours.

# Welcome - UWI-HEU

We at The UWI-HEU are particularly pleased and excited to collaborate with the HIC-FCV in convening the 15th Caribbean Conference on National Health Financing Initiatives from October 4-7, 2023 in Bucaramanga, Colombia.

With fourteen successful Conferences held in various countries in the Caribbean, these Conferences are unique in the region given their specific focus on health financing matters. Since the first meeting in 2006, these Caribbean Conferences on National Health Financing Initiatives have actively sought to share knowledge and build capacity in relation to ongoing issues, challenges, responses, institutional arrangements and best practices in Caribbean health financing systems.

Mindful that we have only seven years left to show significant progress on Universal Health Coverage (UHC) re: Sustainable Development Goal 3.4 (2015-2030), this year's Conference will focus on two critical components of UHC—governance arrangements; and public-private partnerships for financing and delivery of essential health services.

The Conference's Programme has just the right balance of intense technical discussions and fulfilling social events. In this regard, we expect that the 15th Conference will propel us several steps ahead in advancing knowledge and strengthening institutional networking arrangements for getting health financing right and securing UHC in our countries.

On behalf of the entire team at The UWI-HEU, let me heartily join with our co-host and collaborating partner, the HIC-FCV, to cordially invite and welcome you for four productive and knowledge-packed days at the 15th Conference in Bucaramanga, Colombia.

*Dr. Althea La Foucade*

Director  
HEU, Centre for Health Economics,  
The University of the West Indies, St Augustine Campus

# Welcome - HIC-FCV

After several years of planning and discussions, our team at the HIC-FCV is delighted to collaborate with The UWI-HEU in convening the 15th Caribbean Conference on National Health Financing Initiatives from October 4-7, 2023.

We are also pleased to extend a very special welcome to Bucaramanga, the beautiful city of Colombia and home of the internationally accredited FCV Medical Complex “Hospital Internacional de Colombia”. This city is located in the department of Santander which is famous for its beautiful landscapes such as the Chicamocha Canyon, the second deepest in the world, its ecotourism and adventure. It is also very well known for its strong health-tech sector, with more than 6,000 companies in this field, and the highest level of education in the country.

At the Hospital Internacional de Colombia, we provide a range of medical specialties for local and international patients and we fully recognize the significance of reliable financing plans for access to patient care and sustainability of the hospitals and health systems. We eagerly look forward to the presentations and discussions at the Conference since all of us have experiences, challenges and successes to share in this crucial area of health financing.

With the Conference being held in the auditorium and meeting rooms at the Hospital Internacional de Colombia, we also look forward to providing opportunities for participants to tour the facilities and to discuss our management of patient care, training, as well as local partnerships and collaborations in advancing these in their home countries.

In addition, we have planned a series of social events that will thrill you with some of the culinary experiences, sights and sounds of the city of Bucaramanga and the department of Santander.

Join us—the team of the HIC-FCV, our co-host The UWI-HEU, as well as other local and visiting participants—for what promises to be a wonderfully productive and exciting 15th Conference in Bucaramanga.

*Dr. Victor Castillo*

President  
Hospital Internacional de Colombia-Fundación  
Cardiovascular de Colombia

# Welcome - Conference Coordinator

Warm greetings to participants, presenters, sponsors and online visitors.

With sincere thanks to the dedication, support and collaborative activities of our co-host - the internationally-accredited HIC-FCV - we are absolutely delighted to be in the city of Bucaramanga, Colombia for the 15th Caribbean Conference on National Health Financing Initiatives.

As in previous Conferences, we have incorporated feedback from participants, as well as the voices and suggestions from policymakers, health managers and other health financing experts to design and craft this year's Programme with the theme 'Health Financing in the Caribbean: Optimizing Efficiency in Governance and Public-Private Partnerships'.

In this regard, participants can expect a mix of informed insights and bold thinking from our selected presenters—policymakers, policy advisors, health managers, academics and 'new voices'—climaxing in a special Panel on Day 3 examining the matter of 'anticipating challenges, building resilient health financing systems'.

Additionally, with overseas care being such a crucial yet costly requirement for universal coverage in our countries, we have provided adequate opportunities in the Programme for relevant discussions with on-site hospital officials at the HIC-FCV; the premier health facility in Colombia for treating overseas patients.

Save the dates and join us at the 15th Conference in Bucaramanga, Colombia as, individually and collectively, we enhance our capacities to 'do more and do better' in health financing matters.

*Dr. Stanley Lalta*

Conference Coordinator  
HEU, Centre for Health Economics,  
The University of the West Indies, St Augustine Campus

# Speakers

## **Dr Ramon Figueroa, M.D, MPH**

Dr Ramon Figueroa received his Public Health training at Hebrew University Hadassah School of Public Health, Jerusalem, Israel. He is a graduate of the PAHO International Health Residency course in Washington, D.C (1996) and has done various courses on Health Management and Quality Assessment at Harvard School of Public Health.

He has worked in the Ministry of Health most of his career with positions as Director of Maternal and Child Health; Director of Primary Care; Director of the Planning Unit and Permanent Secretary/CEO in 1998 and 2015-2018. He also worked as PAHO Health Systems Advisor for the Eastern Caribbean based in Barbados in 2012/2013.

He was General Manager of the newly established National Health Insurance Unit in the Social Security Board in 2000 and returned to this position since 2018.

He is a competitive sports enthusiast particularly in triathlon, martial arts, and long distance running.

# Speakers

## Dr Ramon Abel Castaño

Dr Castaño is a physician attached to the CES University (Institute of Health Sciences) in Colombia.

He gained his Master's Degree in Health Management and Policy from the Harvard School of Public Health and PhD in Public Health and Policy from the London School of Hygiene and Tropical Medicine.

He is a health systems consultant and author of the book 'Health Reform Yes or No? Five Reasons Why Petro's Proposal Does Not Solve The Fundamental Problems of the Colombian Health System'.

Dr Castaño is also a Member of the National Academy of Medicine of Colombia.

# Speakers

## **Dr Robin Roberts, M.D., MBA**

Dr. Robin Roberts is medical graduate of The University of the West Indies (UWI) with his Urology specialty training from Dalhousie University in Canada. He also holds an MBA from the University of Miami.

He is a Senior lecturer at the UWI and served for the past 10 years as Director of The UWI's School of Clinical Medicine & Research in The Bahamas. He also served as the first Chairman of the Board of the National Health Insurance Authority in 2017, and currently is the Deputy Chair.

He has held several national and regional administrative responsibilities and was awarded an Order of the British Empire (OBE) in 2017 for his contribution to healthcare in The Bahamas.

He is President of the Physician Alliance Organization - a private company of physician investors who, in a unique Public Private Partnership, manages the Private Medical and Surgical inpatient-wards and suites of the 450-bed tertiary care Princess Margaret Hospital in The Bahamas.

## **Dr Kester Nedd**

Dr Nedd is the Managing Partner of Design Neuroscience Center, LLC and Chairman & CEO of JIPA Network, LLC.

# Speakers

## Dr Victor Raul Castillo

Dr Castillo is a Cardiovascular Surgeon attached to the Universidad Pontificia Bolivariana in Colombia.

He is President of the internationally-accredited Fundación Cardiovascular de Colombia and Hospital Internacional de Colombia. He is also a Member of the Board of Directors of the Acueducto Metropolitano de Bucaramanga.

In the scientific field, he has been involved in numerous research projects in pediatric and adult surgery. From these positions, he has led significant initiatives for regional health and medical development. He has also served as special guest lecturer in prestigious health care courses, national and international congresses, and symposiums.

## Dr Ricky Braithwaite

Ricky Braithwaite has over 15 years of experience in leading healthcare initiatives and teams related to health systems. He has specific technical expertise in the areas of healthcare economics, health systems engineering and bioengineering.

He currently serves as the CEO of the Bermuda Health Council, whose role is to regulate, coordinate, and enhance the delivery of health services in Bermuda.
